

### **Material Safety Data Sheet**

### Formula 4-Stroke® Marine Synthetic Motor Oil 10W-30

# Section 1. Product and company identification

**Product name** 

Formula 4-Stroke® Marine Synthetic Motor Oil 10W-30

Material uses

Lubricating Fluid.

Supplier/Manufacturer

AMSOIL INC. 925 Tower Avenue Superior, WI 54880 Code

WCT

MSDS authored by

AMSOIL INC.

In case of emergency

CHEMTREC: (800) 424-9300

### Section 2. Hazards identification

#### **Emergency overview**

Color : Amber. [Light]
Physical state : Liquid. [Fluid.]
Odor : Mild hydrocarbon.
Signal word : WARNING!

Signal word : WARNING!

**Hazard statements**: CAUSES EYE AND SKIN IRRITATION.

**Precautions**: Avoid contact with eyes, skin and clothing. Wash thoroughly after handling.

OSHA/HCS status : This material is considered hazardous by the OSHA Hazard Communication Standard

(29 CFR 1910.1200).

#### Potential acute health effects

InhalationIngestionNo known significant effects or critical hazards.No known significant effects or critical hazards.

Skin : Irritating to skin.

Eyes : Irritating to eyes.

### Potential chronic health effects

Chronic effects
 Carcinogenicity
 Mo known significant effects or critical hazards.
 Mutagenicity
 No known significant effects or critical hazards.
 Teratogenicity
 No known significant effects or critical hazards.
 Developmental effects
 No known significant effects or critical hazards.
 Fertility effects
 No known significant effects or critical hazards.
 No known significant effects or critical hazards.

### Over-exposure signs/symptoms

Inhalation: No specific data.Ingestion: No specific data.

**Skin**: Adverse symptoms may include the following:

irritation redness

**Eyes**: Adverse symptoms may include the following:

pain or irritation

watering redness

1/6 Date of issue : 06/15/2010

Medical conditions aggravated by overexposure : None known.

See toxicological information (section 11)

# Section 3. Composition/information on ingredients

#### **United States**

NameCAS number%Phosphorodithioic acid, O,O-di-C1-14-alkyl esters, zinc salts68649-42-31 - 5

Canada

Name
Phosphorodithioic acid, O,O-di-C1-14-alkyl esters, zinc salts

CAS number
68649-42-3
1 - 5

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

### Section 4. First aid measures

**Eye contact** : Immediately flush eyes with plenty of water for at least 20 minutes, occasionally lifting the upper and lower eyelids. Get medical attention if symptoms occur.

Skin contact : After contact with skin, wash immediately with plenty of soap and water. Get medical

attention if symptoms occur.

InhalationIngestionMove exposed person to fresh air. Get medical attention if symptoms occur.Wash out mouth with water. Do not induce vomiting unless directed to do so

: Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical

attention if symptoms occur.

Notes to physician : No specific treatment. Treat symptomatically. Contact poison treatment specialist

immediately if large quantities have been ingested or inhaled.

# Section 5. Fire-fighting measures

Flammability of the product : N

: No specific fire or explosion hazard.

**Extinguishing media** 

**Suitable**: Use an extinguishing agent suitable for the surrounding fire.

Not suitable : None known.

lazardous decomposition : No specific data.

Hazardous decomposition products

Special protective equipment for fire-fighters

: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### Section 6. Accidental release measures

Personal precautions

: Put on appropriate personal protective equipment (see section 8).

**Environmental precautions** 

: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods for cleaning up

**2/6** Date of issue : 06/15/2010

#### **Small spill**

#### Large spill

- : Absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
- Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see section 1 for emergency contact information and section 13 for waste disposal.

# Section 7. Handling and storage

#### Handling

Put on appropriate personal protective equipment (see section 8). Avoid contact with used product. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Avoid contact with eyes, skin and clothing. Empty containers retain product residue and can be hazardous. Do not reuse container.

#### **Storage**

: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

# Section 8. Exposure controls/personal protection

Under conditions which may generate mists, the following exposure limits are recommended: ACGIH TLV TWA: 5 mg/m3; STEL: 10 mg/m3.

Consult local authorities for acceptable exposure limits.

# procedures

Recommended monitoring: Personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.

#### **Engineering measures**

: No special ventilation requirements. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

#### **Hygiene measures**

: Ensure that eyewash stations and safety showers are close to the workstation location. Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.

#### Respiratory

: Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Not required under normal conditions of use. Recommended: Wear an appropriate NIOSH approved respirator if concentration levels exceed the safe exposure limits.

#### **Hands**

: Use gloves appropriate for work or task being performed. Not required under normal conditions of use. Recommended: Natural rubber (latex).

**Eyes** 

: Safety eyewear should be used when there is a likelihood of exposure. Not required under normal conditions of use. Recommended: Safety glasses with side shields.

Skin

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. No special protective clothing is required. Recommended: Coveralls.

#### **Environmental exposure** controls

: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

Date of issue : 06/15/2010

# Section 9. Physical and chemical properties

Physical state : Liquid. [Fluid.] Odor : Mild hydrocarbon.

Color : Amber. [Light] pH : Not available.

Flash point : Open cup: 236°C (456.8°F) [Cleveland.] Auto-ignition : Not available.

Flash point : Open cup: 236°C (456.8°F) [Cleveland.]

Auto-ignition temperature

Flammable limits : Not available. Melting point/ : -48°C (-54.4°F)

Pour point

Boiling point : Not available. 

Relative density : 0.8591 

Vapor pressure : Not available. 
Vapor density : Not available.

Volatility : Not available. Evaporation rate : Not available.

Viscosity : Kinematic: 0.117 cm²/s (11.7 cSt) (100°C) Solubility : Not available.

Kinematic: 0.747 cm²/s (74.7 cSt) (40°C)

# Section 10. Stability and reactivity

Chemical stability : The product is stable.Conditions to avoid : No specific data.

Materials to avoid : Reactive or incompatible with the following materials: oxidizing materials.

Hazardous decomposition : Under normal conditions of storage and use, hazardous decomposition products should

products not be produced.

Possibility of hazardous : Under normal conditions of storage and use, hazardous reactions will not occur. reactions

**Hazardous polymerization**: Under normal conditions of storage and use, hazardous polymerization will not occur.

# **Section 11. Toxicological information**

Acute toxicity : No specific data.

Chronic toxicity : No specific data.

# **Section 12. Ecological information**

Environmental effects : Not established

### Section 13. Disposal considerations

Waste disposal : The generation of waste should be avoided or minimized wherever possible. This material and its container must be disposed of in a safe way. Avoid dispersal of specific properties of the disposed of the safe way.

material and its container must be disposed of in a safe way. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Empty containers or liners may retain some product residues. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

**4/6** Date of issue : 06/15/2010

# **Section 14. Transport information**

**DOT/TDG/IMDG/IATA** : Not regulated.

# Section 15. Regulatory information

#### **United States**

**HCS Classification** 

: Irritating material

**U.S. Federal regulations** 

: United States inventory (TSCA 8b): Not determined.

SARA 302/304/311/312 extremely hazardous substances: No products were found. SARA 302/304 emergency planning and notification: No products were found.

SARA 302/304/311/312 hazardous chemicals: No products were found.

SARA 311/312 MSDS distribution - chemical inventory - hazard identification: No

products were found.

Clean Water Act (CWA) 307: Phosphorodithioic acid, O,O-di-C1-14-alkyl esters, zinc

salts

Clean Water Act (CWA) 311: No products were found.

Clean Air Act (CAA) 112 accidental release prevention: No products were found.
Clean Air Act (CAA) 112 regulated flammable substances: No products were found.
Clean Air Act (CAA) 112 regulated toxic substances: No products were found.

#### State regulations

Massachusetts New York

: None of the components are listed.

: None of the components are listed.

New Jersey : The following components are listed: Phosphorodithioic acid, O,O-di-C1-14-alkyl esters, zinc salts

**Pennsylvania** 

: The following components are listed: Phosphorodithioic acid, O,O-di-C1-14-alkyl esters, zinc salts

### California Prop. 65

No products were found.

#### Canada

WHMIS (Canada)
Canadian lists

: Class D-2B: Material causing other toxic effects (Toxic).

: CEPA Toxic substances: None of the components are listed.

Canadian ARET: None of the components are listed.

Canadian NPRI: The following components are listed: Phosphorodithioic acid, O,O-di-

C1-14-alkyl esters, zinc salts

Alberta Designated Substances: None of the components are listed.

Ontario Designated Substances: None of the components are listed.

Quebec Designated Substances: None of the components are listed.

#### **Canada inventory**

: Not determined.

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.

5/6

**International regulations** 

International lists

: Australia inventory (AICS): Not determined.

China inventory (IECSC): Not determined.

**Japan inventory**: Not determined. **Korea inventory**: Not determined.

New Zealand Inventory of Chemicals (NZIoC): Not determined.

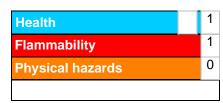

Philippines inventory (PICCS): Not determined.

### Section 16. Other information

#### **United States**

Label requirements : CAUSES EYE AND SKIN IRRITATION.

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on MSDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.

National Fire Protection Association (U.S.A.)
